

What's Happening in October 2020 at the TLC

**Join us for our FREE Online Technology Workshops on Zoom
FRIDAYS from 9:30 to 10:30 am**
Register online at www.rdn.ca/recreation or phone 250-248-3252

Friday, October 2: Hosting your first Zoom session (Brian)

Zoom is a great tool for communicating with family and friends from your computer, smart phone or tablet. If you want to learn about how to set up and manage your own zoom sessions and invite other people to join you then this workshop is for you! If you're not an experienced Zoom user, get your feet wet in this session.

Friday, October 9: Online Safety and Privacy in 2020 (Robbin)

Computer Viruses? Ransomware? Phishing? Account Hacking? As we spend more and more of our lives on-line, how do these and other related issues affect our safety and privacy on-line? Join us to learn about many of the threats we face while on-line in 2020, and steps that you can take to make your on-line life safer and more secure.

Friday, October 16: Controlling your Facebook Presence (Joyce)

With all that is happening in 2020, can you trust the content in Facebook? How can I better manage what comes in my News Feed? Is it safe to belong to Groups? Is it safe to buy and sell online through Facebook? How do I watch a LIVE Video? What is new that might be of interest? And, should I get rid of my account? If yes, we will show you how.

Friday October 23: Free online technology learning for seniors 2020 (Brian)

There is an ever-growing number of online resources and tools to help seniors feel more comfortable with technology. Video chat, movies, audiobooks, online courses on different topics. Learn a bit more about how to access this kind of knowledge and entertainment.

Friday, October 30: Password Security – Guarding your digital keys (Robbin)

Do you get stressed out when a web site asks you to create or update a password? Confused about just what is a "strong and secure" password? And just how can you keep track of all those passwords? Join us for an introduction to safe and effective password management techniques and tools that will actually simplify and vastly improve your security on-line.
