Friday, November 6: Microsoft Excel Basics (Joyce)

Introduction to spreadsheets Basics with MS Excel – Learn the power of spreadsheets! Format text and numbers, make changes to columns and rows, create and edit simple formulas.

Friday, November 13: Getting comfortable with Android (Brian)

You have a new phone or tablet running the Android operating system, now what? If you want to get a little more comfortable and confident with using Android on your device, attend this online workshop and learn about ease of use features and some tips and tricks.

Friday, November 20: Backing up your digital life (Robbin)

Our lives are moving into the digital world at an ever-accelerating pace. For most of us our cellphones are now how we capture and store everything from photos to tax returns, bank records, utility bills, email, eBooks and even the software we buy to use our devices. Backing up the contents of our computing devices is essential. Join us as we review the why's and how's of backing up the contents of your desktops, laptops, smart phones, and tablets.

Friday November 27: Etsy (Joyce)

Etsy is an online marketplace where people can buy and sell unique goods. Its focus is on handmade items and the sale of goods to make handmade items. Etsy makes it possible for creators to sell their work online without having their own website. With Christmas fast approaching, learn about Etsy and its possibilities.

Location: 494 Bay Avenue, Parksville (The Family Place)
